

Dear Reader,

In this issue, we are pleased to share with you the results and materials of our 10th annual event - ALL DIGITAL Summit, to introduce our Awards winners and new members, and to tell you about our 10 years celebration. As always, you will find updates on the projects, news from our network members and information on upcoming events and open calls.

Yours,

ALL DIGITAL Team

What's on at ALL DIGITAL

ALL DIGITAL Summit in Barcelona explored digital skills for social innovation

On 4-5 October, over 150 participants representing 92 organisations from 26 countries gathered in the beautiful CaixaForum in Barcelona for the ALL DIGITAL Summit 2017. The event under the title 'Digital Skills for Social Innovation' was hosted by Colectic (formerly El Teb) in collaboration with Generalitat de Catalunya and Esplai Foundation. It was supported by laCaixa Foundation, City Council of Barcelona, GSMA Mobile World Capital, HP, and Telapolis. Learn more about the event, its sessions, workshops, see photos [here](#)

Commissioner Navracsics commended on the excellent work of ALL DIGITAL members

In the opening video message at the ALL DIGITAL Summit 2017, Tibor Navracsics, Commissioner for Education, Culture, Youth and Sport, said, "The digital age should empower and benefit all people, not just the

privileged few. Your organisation is crucial to help us reach this goal. Your model is unique in bringing digital world to those who feel excluded from it. Through your many centres in Europe, you are instrumental in closing this gap and providing everyone with high quality digital skills and using them as a vector of integration."

[KA3: Joint Qualifications in Vocational Education and Training](#) - by 31 January

Projects to look at

Brights: Training Needs Analysis and Informative Kit on Global Citizenship Education

Two info materials have been developed by Brights project partners:

- [Training Needs Analysis Report](#) that studies and describes necessary competences for European teachers and trainers to effectively use digital storytelling as a didactic tool in the field of Global Citizenship Education (GCE);
- A comprehensive [Informative Kit on GCE](#) for policy makers and practitioners in education and training. It summarizes the GCE concept, introduces the benefits of using digital storytelling technique to deal with global challenges, and provides best practices in GCE.

#pathwaysforemploy partners meet in Dublin

#pathways4employ partners met in Dublin on 18-19 October for the 3rd transnational meeting of the project at the premises of our Irish partner FIT Ltd. Check out [this article](#) to learn how we combine assessment tools, open badges and the DigComp to help entrepreneurs find out what digital skills they need.

#DSJCoalition

Read about the developments of the [National Coalitions in Luxembourg, Lithuania, and Latvia](#); learn about the [Digital Opportunities traineeships](#); and [join the Digital Skills and Jobs Coalition as a member!](#)

New HURISTO project launched!

The purpose of the new HURISTO project is to develop a methodology for awareness raising and advocacy about the **European human rights charter** as part of global citizenship education with low skilled adult learners (refugees and migrants living in the city and natives living in rural places). This methodology will be based on digital storytelling; project partners will work on personal narratives illustrating different topics of the charter. **Maks vzw** (Belgium) cooperates with **Terremondo cooperativa sociale** (Italy), **Cepa Montes Norte** (Spain) and **ALL DIGITAL**. [Learn more](#)

HLINC: Jobs Week Campaign

Are you working with young people who are looking for jobs? Then let them know about a great opportunity to ask our experts anything and finding and landing their dream job during the **JOBS WEEK CAMPAIGN**.

UMI-SCI-ED webinars

A series of webinars will take place in November revolving around STEM education, UMI technologies and related topics. Come join the www.umi-sci-ed.eu project, for example, on 20 November at a webinar on "The Tiles IoT design workshop: design of IoT apps & creativity at UMI".

Welcome to new ALL DIGITAL members

Poland: ECCC Foundation

ECCC Foundation aims at building a digital society for all citizens. Their goal is to provide up-to-date digital curricula that fit the needs of the fast-changing world. The NGO realizes its goals by promoting and disseminating the ICT knowledge and key competences, boosting ICT education, learning and supporting local initiatives, as well as constant development of the European Computer Competence Certificate (ECCC). [Learn more](#)

Lithuania: Association Rural Internet Access Points

The goal of the Association is to enable local individuals and institutions to build key elements of modern and vibrant society through promotion of new information and communication technologies, expansion of access to the Internet resources and improvement of quality of education. Association informally is supporting established networks of digital competence centres in Lithuania. [Learn more](#)

Macedonia: iVote Foundation

The mission of the Foundation is building democracy through the application of innovative management and learning systems. iVote Foundation has also been implementing projects in the area of improving employability skills and basic coding for people with disabilities. [Learn more](#)
