## FMD - FONDAZIONE MONDO DIGITALE

03/03/2016 | News release | Distributed by Public on 03/03/2016 10:13

### Innovation School

The **Discovering Talents Fair** will end the third edition of **Meet no Neet**, the programme promoted by the **Fondazione Mondo Digitale** in collaboration with **Microsoft** to provide young men and women with the key skills necessary to access the labour market.

Today in Peschiera Borromeo, at the headquarters of Microsoft Italy, high school students will meet with companies and youth incubators to present their social inclusion and innovation projects. They will have five minutes to convince the audience to invest in their entrepreneurial idea. The five winners will also receive an award in cash to develop their project.

This initiative also inaugurates the **STEM Month** that the Ministry of Education, University and Research has dedicated to women and scientific disciplines (STEM stands for: Science, Technology, Engineering, and Mathematics) to overcome the gender divide in the field of ICT.

Female success stories amongst the elevator pitches, too.

#### DISCOVERING TALENTS FAIR
