Address: Via Primo Maggio 11,

Calderara di Reno, 40012 Bologna,

Italy

ABOUT ME

I am very passionate about Neural Networks and Artificial Intelligence, that's why in my free time I mathematically study how they work. Moreover, I have always been fascinated by entrepreneurship, I enjoy meeting disruptive people who are building something and try to learn the most I can from them. Overall, I am always driven by curiosity and eager to challenge myself with something new.

EDUCATION

Engineering Management - University of Bologna

Class of 2021 | 2018 - present | Bologna, Italy

This programme integrates management skills with in-depth technical competences in order to solve today's business problems with innovative solutions.

IIS O. Belluzzi Technical Secondary College

Class of 2018 | mark: 100 | Bologna, Italy

WORK EXPERIENCES

Business Development Junior Intern

Cubbit | Mar 2018 - Oct 2018 | Bologna, Italy

Cubbit is a high-tech startup that is shaping the cloud, creating a new encrypted and decentralized one. I had the opportunity to work shadowing its co-founders to understand how a startup works especially in Business Development tasks, from product-market fit to fundraising.

Computer Hardware Repairer

A&D SERWIS | Mar 2017 - Mar 2017 | Wroclaw, Poland

Part of MOVING GENERATION 2020 ERASMUS+ PROGRAM I was selected to participate in a one month internship abroad. My tasks were:

- Analyzing the hardware to identify the problem
- Replacing damaged components and test the new ones

EXTRACURRICULAR ACTIVITIES

Winner of Tecnopia Award 2018

Apr 2018 - Dec 2018 | Rome, Italy - London, UK

It is a contest organized by the Homo Ex Machina Foundation to invite young people under 19 to reflect on ethical-technological dilemmas. As the winner team, my mates and I had the opportunity to talk about our personal growth, carrier and future goals with some top managers and entrepreneurs in Rome and London.

Team Member "Startup Day Unibo"

Mar 2018 - present | Bologna, Italy

As a team member, I help to organize the most important Italian event about youth entrepreneurship. The goal of StartUp Day is connecting young students who are taking the very first steps in entrepreneurship with potential supporters.

Giardino delle imprese" Informal School of Entrepreneurial Culture, Fondazioni Golinelli

Jun 2016- Dec 2017 | Bologna, Italy

- The aim of the school is helping students developing an entrepreneurial culture by lessons, workshops and events
- I was selected to receive the "Badge Entrepreneurship" for having demonstrated the development of entrepreneurial competencies and skills. Here the Badge:
